

# MIGUEL PACHECO

Web developer with extensive experience in building applications and websites, skills in back-end, front-end, and UX/UI design. My experience in the industry has allowed me to develop a wide set of skills.

I have also worked on large and complex projects, which has allowed me to acquire extensive experience in project management and teamwork. I consider myself a curious and proactive person, with a great interest in new technologies and a focus on continuous learning.

My goal is to seek greater responsibilities in a company that allows me to continue growing professionally, providing me with new challenges and learning opportunities, as well as job stability.
